

Did you know...

**That a Charleston Habitat family of 4 earns between \$14,740
and \$33,840?**

**This means that the average Habitat homeowner can afford to
spend about \$75,000 on housing.**

Compare that to these figures...

Local area	Median Home Price	Average Home Price
North Charleston	\$144,000*	\$150,639*
West Ashley	\$215,900*	\$245,342*
Charleston County	\$209,900*	\$301,410*

**...and it's clear why Habitat has meant so much to so many
families in need of housing.**
