

Cougars Helping Enhance the Community

We at the CHEC Center hope that you all have had a wonderful summer and are feeling rejuvenated and excited to begin a new year of learning and serving the campus and the community! We have a very active semester planned that's jam-packed with opportunities to get involved. Please give us a call or come by the office if you are interested. Best wishes for a fun and meaningful school year!

Homecoming Project

For schools across the country, homecoming is a time of returning focus to the campus community, a time of coming home to a renewed sense of responsibility and pride. At C of C, we want to make our 2008 Homecoming in February a time of school spirit and celebration as well as a time of looking beyond our campus and engaging ourselves within the larger community.

Well, how's this for an idea? We are currently planning a Homecoming Project in which C of C will collaborate with Habitat for Humanity and a wide variety of community partners to complete a home-building project during the week of Homecoming.

But we need your help.... To build this house, we will need some major fundraising and countless hands to help in the construction. We need every organization, every fraternity, every sorority, every dorm, every classroom to get involved. We need your energy, your school spirit, and your passion for community outreach.

Please contact the CHEC Center if you have ideas or you want to get involved!!!
